### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

|                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p style="text-align: center;"><b>SAYS</b></p> <ul style="list-style-type: none"> <li>• Wants accurate player statistics</li> <li>• Needs an easy way to review and compare player performance.</li> <li>• Wants player and match information in one organized system.</li> </ul> | <p style="text-align: center;"><b>THINKS</b></p> <ul style="list-style-type: none"> <li>• Needs accurate player statistics, easy navigation, and a simple method to analyze overall player performance.</li> <li>• Thinks manual records make comparison difficult.</li> <li>• Wants quick access to performance reports and summaries.</li> </ul> |
| <p><b>PERSONA NAME</b><br/>         Name: Team Manager<br/>         / Coach Role /<br/>         User Type: Cricket<br/>         Team Coach</p>                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                    |
