

Problem-Solution Fit

Date	29- 09 - 2026
Team ID	SWTID-2026-3226
Project Name	CRICKSTATS
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] • Cricket team coaches • Team managers • Sports analysts • Application users • Student project developers	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] • Manual data entry takes time. • Data may be stored in different records. • Difficulty accessing all statistics quickly. • Duplicate or incomplete information. • Internet dependency. • Salesforce license requirement.	5. AVAILABLE SOLUTIONS PROS & CONS [AS] • Separate documents/files for storing statistics. • Salesforce-based player performance tracker. • Stores player and match data. • Records match statistics. • Supports performance tracking. • Data may be scattered. • Manual entry takes time. • Comparison is difficult
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] • Player statistics are stored in different records. • Manual data entry is repetitive and time-consuming. • Duplicate or incomplete records may occur. • Comparing player performance across matches is difficult.	9. PROBLEM ROOT / CAUSE [RC] Cricket statistics are maintained manually. • Player and match details can be scattered across different documents. • No single organized view of statistics. • Repeated manual data entry. • Lack of centralized performance tracking	7. BEHAVIOR + ITS INTENSITY [BE] • Add player details. • Enter match performance data • Review player results. • Compare player statistics. • Generate reports. • View dashboards.
3. TRIGGERS TO ACT [TR] • Need to track player performance. • Need to update player records. • Need to compare players. • Need to enter match-wise statistics. • Need to generate reports and dashboards.	10. YOUR SOLUTION [SL] CRICKSTATS – Salesforce-based Cricket Player Performance Tracking Application. • Centralized Player and Match Performance objects. • Connected player and match records. • Match-wise performance tracking. • Roll-up summary fields for statistics. • Salesforce Flow for team-based player filtering. • Reports and dashboards for performance analysis. • Automated summaries and organized performance information.	8. CHANNELS OF BEHAVIOR [CH] ONLINE • Salesforce Lightning application • Reports • Dashboards • Web/browser access OFFLINE • Manual records/documents • Match information collected before entering it into the system
4. EMOTIONS BEFORE / [EM] AFTER • Unsure when comparing players. • Busy and less efficient. • Hard to find performance trends.
