Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Allows users to navigate the application, enter	Salesforce Lightning
API Gateway	Handles access to the Salesforce application and	Salesforce Platform
Microservices / Application Logic	Processes player and match information and	Salesforce Flows, Roll-up Summary Fields, Validation
Database	Stores player details and match-wise performance	Salesforce Custom Objects, Salesforce Cloud
