Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes – Salesforce configuration (objects, fields, flow, app)
2	README / Setup Guide (instructions to run the project)	Yes – milestone-wise setup guide (project document)
3	requirements.txt / package.json / dependency file	NA
4	Database schema / seed files (if applicable)	Yes – object and field schema documented
5	Environment configuration file (.env.example or similar)	NA
6	Deployed application URL (if hosted)	Yes – Salesforce Developer Org
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	Yes – testing screenshots and results (Section 7)
10	Demo video or walkthrough (if required)	Yes – demo walkthrough

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

/CRICKSTATS (Salesforce Developer Org, configured through Setup)

/Objects - Player__c, Match_Performance__c

/Fields - Player: Player Name, Player Number, Profile Picture, Date of Birth, Role, Batting Style, Bowling Style, Nationality, Team, AVG Score (formula), Match Performance (lookup)

/Fields - Match Performance: Runs Scored, Balls Faced, Fours, Sixes, Overs Bowled, Wickets Taken, Runs Conceded, Maiden Overs, Stumpings, Catches, Player of the Match, Match Result, Player (master-detail)

/Roll-up Summaries - Matches Played, Number of 50's / 100's, Total 4's / 6's, Total Runs, Total Overs, Wickets, Stumpings, Catches

/Tabs - Players, Match Performances

/Apps - CRICKSTATS Lightning App (Home, Players, Match Performances, Reports, Dashboards)

/Flows - Player_Flow (Screen Flow: Team picklist → Get Records → Data Table)

/Pages - Home page with the Players Flow component

/Reports & Dashboards - player performance analytics

/docs - CRICKSTATS project documentation (PDF)

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	SalesforceDeveloperEdition org (CRICKSTATS Lightning App), accessed via login.salesforce.com
Login Credentials (Demo)	Org username and password provided separately to the evaluator (Salesforce Developer)
Platform / Hosting Provider	Salesforce(LightningExperience, cloud-hosted)
Repository Link	NA–builtdirectlyinthe Salesforce org; project documentation submitted as PDF
Demo Video Link	Demovideolinktobeadded by the team

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

Pre-requisites:

Salesforce Developer Edition org (free), a web browser (Chrome / Edge) and a stable internet connection.

Step 1: Log in to the Salesforce org with the provided credentials (Lightning Experience).

Step 2: Open the App Launcher and select the CRICKSTATS Lightning App.

Step 3: Open the Players tab → New, and enter player details (name, number, role, batting / bowling style, nationality, team).

Step 4: Open the Match Performances tab → New, enter match statistics and select the related Player.

Step 5: On the Home page, run the Players Flow: choose a Team from the picklist and click Next to see the player table (Total Runs, AVG Score, Matches Played, 50's, 100's).

Step 6: Open the Reports and Dashboards tabs to review player performance.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Requires a Salesforce license / Developer Edition org	Free Developer Edition org can be used for the demo
2	Internet dependency; limited offline access	Use a stable connection; mobile / offline app planned as future scope
3	Match statistics are entered manually; flow filters by team only	Data entry via Match Performances tab; ranking, prediction and bulk import planned
