|----------------------|-----------------|
| <b>Date</b>          | 29-09-2026      |
| <b>Team ID</b>       | SWTID-2026-3226 |
| <b>Project Name</b>  | CRICKSTATS      |
| <b>Maximum Marks</b> | 1Mark           |

### Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project , including the flow of the demo, key features to highlight, and responsibilities of each team member.

| S.No | Demo Section                | Description                     | Duration (mins) | Responsible Member |
|------|-----------------------------|---------------------------------|-----------------|--------------------|
| 1    | Introduction & Problem      | Introduce CRICKSTATS and        | 2               | Member 1           |
| 2    | Solution Overview           | Explain the Salesforce-based    | 2               | Member 2           |
| 3    | Player Object Demonstration | Show the Player object and      | 3               | Member 3           |
| 4    | Match Performance           | Show Match Performance          | 3               | Member 4           |
| 5    | Flow, Reports & Dashboard   | Demonstrate the Player Flow.    | 3               | Member 1           |
| 6    | Results & Conclusion        | Show the final results, explain | 2               | Member 2           |

## Demo Flow Summary:

| Step | Activity                         | Notes                                                                                                  |
|------|----------------------------------|--------------------------------------------------------------------------------------------------------|
| 1    | Introduction & Problem Statement | Explain the problem of storing player and match statistics in different records.                       |
| 2    | Solution Overview                | Explain CRICKSTATS as a centralized Salesforce application.                                            |
| 3    | Live Feature Demonstration       | Demonstrate Player Object, Match Performance Object, fields, relationships, roll-up summaries and Flow |
| 4    | Q&A Session                      | Answer questions about the project, Salesforce features and implementation.                            |
